Internship

ginstr GmbH is a business solutions provider based in Berlin, Germany. Our mission is to help organisations integrate mobile applications and web applications into their operation for decreasing error, time, and labour involved in filling out paper forms and entering them into a computer system.

The ginstr team has extensive experience in the B2B field, specialising in creating tailor-made solutions for businesses in various sectors including transport, logistics, construction, security, and health care.

Actively looking for Marketing Intern - SEO as we continue our hyper-growth in 2016. We are hiring bilingual interns for our Berlin office with:

- Spanish (native) and English conversational proficiency

Responsibilities include: developing marketing strategies to boost SEO and to maintain our social presence, assisting in SEO research and database updates. The internship duration would last from 3-12 months depending upon the availability of student to be a full time intern with us (40 hours a week). The internship is followed with an attractive monthly compensation and has to be a mandatory internship.

Students who are willing to explore this exciting opportunity within Business technology domain shall send their CV and motivation letter at:
